

AYAAN PATHAN

Software Developer | Java & Full-Stack Development

+918010072254 • ayaanpathan1509@gmail.com • [LinkedIn](#) • [GitHub](#)

SUMMARY

Final-year Computer Engineering student with hands-on experience in Java and Spring Boot development. Build full-stack and AI-integrated applications with strong foundations in Data Structures, OOP, and REST APIs. Interested in contributing to scalable and reliable software solutions.

EDUCATION

B.Tech in Computer Engineering Pursuing, VU University, Pune

June 2026

CGPA : 8.44

Diploma in Computer Engineering, MSBTE

June 2023

Percentage : 79.4 %

WORK EXPERIENCE

Front-End Developer Intern | Unified Mentor

October 2024 - November 2024

- Built front-end architecture for a Gym Website delivering a responsive UI using React.js, improving load time by 20 %.
- Optimized navigation and component rendering for smoother UX.

Software Developer Intern | IANT

July 2022 - August 2022

- Developed a cross-platform mobile application for real-time language translation, featuring an intuitive UI and seamless functionality to enhance user accessibility.
 - Implemented user-centric design principles, improving translation accuracy and usability, which resulted in a smoother multilingual communication experience.
-

PROJECTS

WayFare-AI | AI-Based Trip Planner [Github Repo](#)

- Built an AI-powered travel planner using Gemini API to generate personalized itineraries.
- Implemented Google OAuth authentication and Firebase Firestore for real-time storage, Merged Google Maps API
- Designed and implemented RESTful endpoints handling 100+ simulated user requests.
- **Tech Stack: React.js, Firebase, Gemini API, TailwindCSS.**

Insider Threat Detection [Github Repo](#)

- Designed a system to monitor and analyze user activity logs for identifying suspicious insider behavior.
 - Engineered backend services with ML-based detection modules and supported result storage and visualization.
 - Collaborated in a 4-member team, contributing to backend development, integration, and testing across the system.
 - **Tech Stack: Python, Flask, SQLite, Pandas, HTML, CSS, JavaScript, REST APIs, Machine Learning Integration**
-

TECHNICAL SKILLS

- **Programming:** Java, Python, C++, JavaScript
- **Frameworks:** Spring Boot, React.js, Node.js, Express.js
- **Databases:** MySQL, MongoDB
- **Tools & Testing :** Git, GitHub, Postman, JUnit
- **Concepts:** OOP, Data Structures & Algorithms, REST APIs

SOFT SKILLS : Problem Solving | Analytical Thinking | Team Collaboration | Adaptability | Attention to Detail
